Dear Parent,

Session 2008-09 has come to an end. We are thankful for your faith and cooperation. In this session we were able to achieve the learning targets we have set and the same are visible in the behaviour of our students. Programmes for student development as well as teacher development were conducted through out the year. The National Workshop for School Principals, where Principals from all over the country participated, is a biggest achievement by any school. Our students too have excelled in academic as well as sports event representing School upto National Level. This very much shows the strength of the school.

For the coming session 2009 – 2010 we have made some changes as follows:
